

Alexis Herrera Saucedo – Frontend Developer

(+52) 458 102 3799 | alexishs451@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

An enthusiastic and detail-oriented Junior Frontend Developer with proficient knowledge in Vue, Nuxt.js, Vuetify, Pinia, Vuex, React, and Next.js. Seeking to utilize my technical skills and expertise to contribute to successful projects both today and in the future. Aiming to take on new challenges and utilize my coding for developing new features and enhance the overall user experience.

EXPERIENCE

Overclock studios — Frontend Web Developer (February 2022 – Present)

- Designed web pages using Figma to ensure visually appealing and user-friendly layouts.
- Developed responsive websites optimized for both mobile and desktop experiences. Technologies utilized include Vue, Vuetify, Pinia, Nuxt.js, React, Next.js, and Tailwind.
- Successfully integrated websites with powerful backend services such as databases, APIs, and other services.

Ugusoft S de RL — Frontend Web Developer (March 2021 – January 2023)

- Development of the [give me a ride website](#) using technologies such as Vue, Vuetify, Nuxt.js, Vuex and GraphQL.
- Designed site interface in Figma, prioritizing user experience.
- Managed and guided web development team as Department Manager.
- I was tasked with creating a backend office that enables user verification on the platform. This involved accessing individual user details, reviewing reports, adjusting pricing parameters, as well as banning and suspending users. Additionally, I implemented GraphQL notifications to monitor real-time document uploads by users for the purpose of verification.

EDUCATION

Instituto Politécnico Nacional (IPN) — Computer Systems Engineer
